Claim No. 7000 0520 0024 7127 9143

Dear Mr. Bobkiewicz:

REVISION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT AND WASTE DISCHARGE REQUIREMENTS – CITY OF SANTA PAULA, WELL REHABILITATION, SANTA PAULA, CALIFORNIA (NPDES NO. CAG994001, CI-8292)

On July 5, 2001, the City of Santa Paula was provided coverage under the General NPDES Permit No. CAG994001 (Order No. 97-045) adopted by this Board on May 12, 1997, to regulate the discharge of groundwater associated with rehabilitation of Well #11. In a letter dated May 30, 2003, you requested to include additional Wells #13, #14, and #1B to the above-referenced permit.

Regional Board staff have reviewed the information that you have provided with your request. We have revised the Monitoring and Reporting Program (MRP) to include the groundwater discharge from Wells #13, #14, and #1B. In addition, we have made other modifications to the MRP, including new due dates for monitoring report submittal. This revised MRP supersedes the MRP previously sent to you on July 5, 2001.

Enclosed are your Waste Discharge Requirements, which also serve as your NPDES permit, consisting of Order No. 97-045, and the revised MRP No. CI-8292. The discharge limitations in Part E and Attachment B of Order 97-045 are applicable to your discharge. The discharge from the project drains to Santa Clara River between A Street, Fillmore and Freeman Diversion “Dam” near Saticoy. Therefore, Attachment A.3.f. is applicable to your discharge. You are required to implement the attached revised “Monitoring and Reporting Program” on the effective date of this letter. All monitoring reports should be sent to the Regional Board, ATTN: Information Technology Unit.

When submitting monitoring and technical reports to the Regional Board per these requirements, please include a reference to “Compliance File No. CI-8292 and NPDES No. CAG994001”, which will assure that the reports are directed to the appropriate file and staff. Also, please do not combine your discharge monitoring reports with other reports. Submit each type of report as a separate document. In order to avoid future annual fees, please submit written notification when the project has been completed, and the permit is no longer needed.

California Environmental Protection Agency

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption
For a list of simple ways to reduce demand and cut your energy costs, see the tips at: <http://www.swrcb.ca.gov/news/echallenge.html>

July 23, 2003

We are sending Board Order No. 97-045 only to the applicant. For those on the mailing list, please refer to the Board Order previously sent to you. A copy of the Order will be furnished to anyone else who requests it.

If you have any questions, please contact Thizar Tintut-Williams at (213) 576-6752.

Sincerely,

Dennis A. Dickerson
Executive Officer
